

Media release

mcr continues to expand solutions offerings

4th February 2008

Information technology services provider **mcr** computer resources has entered a new partnership with leading IT security company BlueCoat systems.

The arrangement means **mcr** clients will have access to industry leading solutions in the areas of secure web communications and business application acceleration across the distributed enterprise.

"We are pleased to welcome mcr as a Premier partner. As a valued channel partner mcr will have a great opportunity to capitalise on the growth in demand for Security and application acceleration solutions" Regional Sales Manager Australia & New Zealand, Wayne Neich said.

"This partnership will bolster our best-of-breed solutions offerings in the enterprise space," says mcr Strategy and Marketing Manager, Kourosh Ghassemi .

"We have established partnerships with leading Australian and global companies to supply our customers with a comprehensive range of services."
