

## Media Release

30 September 09

### **mcr breaks into the Education Industry**

*As an Authorised Sun Education Partner mcr offers now Managed Services and infrastructure solutions for the education market in NSW and ACT.*

As one of the few selected Sun Education Partner mcr has access to the Education Essentials Hardware Promotions Program. This program offers eligible education institutions deeply discounted pricing on selected Sun systems and storage configurations.

Eligible for the program are but not limited to: K-12 Schools, school district, colleges, universities, teaching hospital, non-profit institution, museum or public library etc.

The intention is to enable students equal education opportunities by providing (the educational sector with) access to the right technology to create an environment for learning and achievement.

### **About mcr Computer Resources**

mcr is an IT infrastructure solutions provider to major corporations and government organisation in Australia; founded more than 21 years ago in Sydney.

The integrator provides supplies and implements IT infrastructure components across the server, storage and networking area all the way to Technical Service, Professional Services and a major focus on Managed Services. mcr has been a Sun Partner for over 14 years and a Sun's Executive Partner for over 3 years.
